Area Rugs

Running Line

The holistic feeling that a room conveys is what truly defines the guest experience. This is where area rugs can make a big difference, adding the perfect, soft touch to your spaces. Not only can they tie your design together with inviting colors and textures, but they can also improve the space adding benefits of sound absorption and comfort for guests.

With our running line area rug portfolio, we make it easy. Choose from a variety of constructions, sizes, shapes and styles with no minimums and a two-week delivery.

Top Right: Crystalline W0078 Blue Calcite 165

Easily enhance spaces with a splash of style

Our curated selection of tufted solution-dyed nylon rugs are cut to order. Just choose your style, shape and size. Your rugs will be ready to ship within two weeks, with no minimum amount required. Simply contact your sales representative to place an order.*

Ease and Availability

With running line styles available in multiple sizes and shapes, including our unique “contour” shape, there is a style in stock to match your vision and the demands of your space.

Comfort and Warmth

The softness of an area rug brings rejuvenating comfort underfoot. A textile floor covering helps increase insulation in a room and creates a cozy place to touch down, helping guests feel more at home.

Sound Absorption

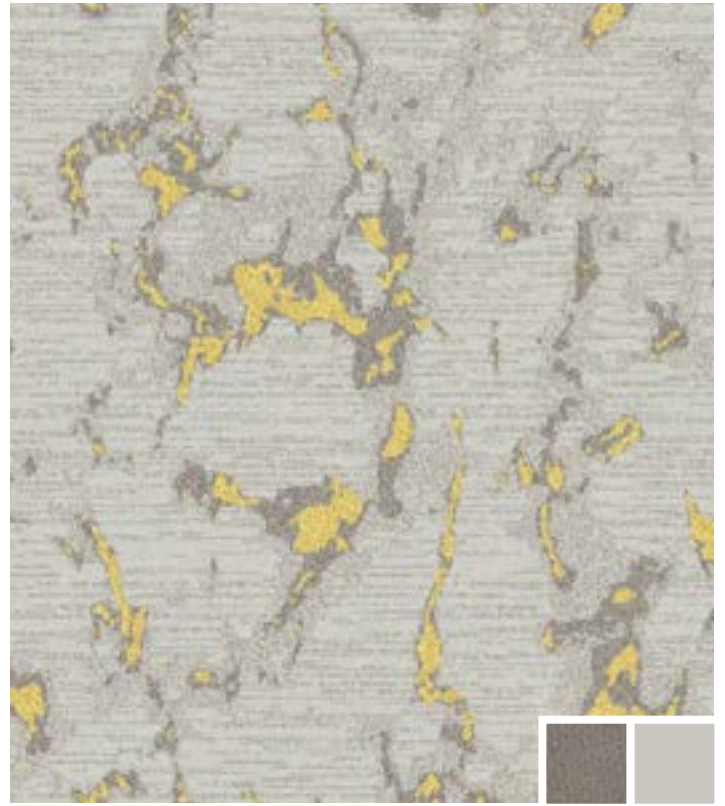

Area rugs improve sound absorption in a space, which is especially important in a hotel environment. Dampening the sound of footsteps and absorbing ambient noise, area rugs help make a room quieter and more relaxing.

* Lead times are estimates and may vary by demand or quantity exceeding 20 rugs. Contact your Sales Representative to discuss.

Micro Serge Edge Treatment

Our unique “micro” serge is smaller than the industry standard size serge to ease the transition underfoot and present a clean edge visually. Each running line style includes a standard micro serge color. You can customize the serge color by selecting another color from our Lextron™ Nylon pom box (excluding metallics and barber poles). Additional cost and lead times will apply.

Hidden Edge Edge Treatment

Our hidden edge option keeps the carpet pattern in the spotlight, reducing visibility of a border around the area rug while keeping the construction and tufting secure. Each running line style includes a standard hidden edge color. Customize it with any of the colors shown below.

Attached Non-Skid Pad

The attached non-skid pad is extruded to the backing for durability and performance. The non-skid texture will not wrinkle, helps the rug dry underneath if it gets wet, as well as protects the subfloor.

Lextron™ Enviro-Green Solution Dyed Nylon

Durable, cost-effective and eco-friendly, our Lextron™ Enviro-Green fiber is 100% solution dyed, made from 10% pre-consumer recycled content and is recyclable after the carpet life cycle is complete.

Our in-house production process, using state-of-the-art equipment, ensures high-quality, fade-resistant fiber with superior stain resistance. With a higher twist level than industry standards, Lextron™ Enviro-Green offers exceptional durability.

Tarkett Hospitality can create options to coordinate with any of our running line products. Choose from over 160 colors. Please refer to our Lextron™ pom box for the full color offering.

Contact Us to Get Started

Tailored Solutions

Hand-Tufted

Works of art with exquisite craftsmanship, brought to life in 100% New Zealand wool. Our hand-tufted area rugs create the perfect focal point for hospitality environments, providing both comfort and eye-catching designs. Explore the vast range of palettes and textures that will help you draw guests into the unique story of your space.

Axminster

Endless design possibilities in a luxurious woven construction, made with premium wool and nylon. Our Axminster provides superior beauty, crisp clarity and exceptional longevity. With our Sculpt technology, you can also enhance your design with multilevel texturing and depth.

Compare to: Axminster (Woven)

Vivid

Richly textured, beautiful patterns with high durability. Choose Vivid to create striking designs in up to 12 colors – the cut and loop tufted construction can deliver the effect of 24 colors, for patterns that are wondrously complex, textured and precise.

Compare to: High Definition CYP

Prestige (Formerly Legacy Plus)

All-cut, large-scale pattern capabilities that deliver design flexibility and high performance, enhancing any public space. Our Prestige construction provides plush comfort and an opulent aesthetic that beautifies ballrooms and busy corridors equally well.

Compare to: CYP (All cut, 36 oz)

DDI (Digital Dye Injection)

Unlimited pattern potential in a durable tufted construction. Your design is deeply injected into the carpet base, with controlled color placement that creates a clear, precise pattern. Choose from cut pile or one of three cut and loop textures for added dimension.

Compare to: Print or Injection Dye

Intrepid

Detailed, clean patterns for public spaces and guest rooms, in a cut/loop or all loop construction that enhances the texture of your design. With its precise patterning, the Intrepid construction gives spaces a feeling of luxury underfoot.

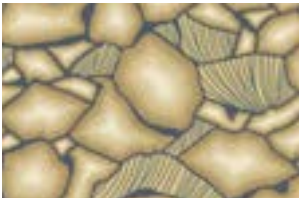

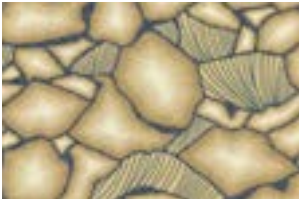

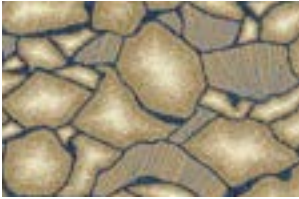

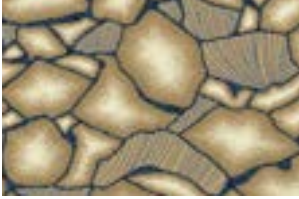

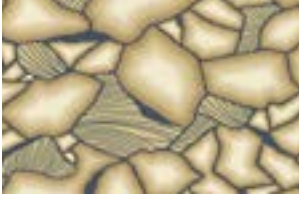

Compare to: ColorPoint, CYP Textured

Dynamics

A beautiful balance of design, durability and value to suit any area, from guest rooms up to large public spaces. Dynamics provides an incredible range of tonal design possibilities, as well as an infinite play in pile heights to give spaces rich textural depth.
